

Hanekomshoop Trust
Hanekomshoop
Moorreesburg

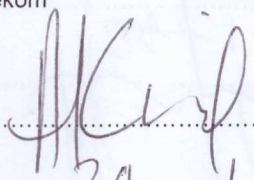

Juwi Renewable Energies is in the process of developing a wind farm on the property Hanekomshoop Trust. I am the trustee of this trust, designated to deal with the wind farm project, and have a mandate from the trustees to enter into negotiations and to finalise transactions in this regard.

There is one homestead on the property Klein Swartfontein currently being rented. I confirm that the homestead will not be occupied during the time that the wind farm is constructed and operated.
